Dear Ms. Gutierrez:

On May 1, 2017, a representative of the U. S. Environmental Protection Agency inspected the referenced facility. The inspection was conducted under the authority of Section 3007 of the Resource Conservation and Recovery Act. A copy of that inspection report is enclosed.

A Notice of Preliminary Finding was issued to your company. I have reviewed your May 11, 2017, response to the NOPF and determined that it adequately addresses the NOPF. Therefore, no further submittals are required at this time. Please note the EPA reserves its right to pursue appropriate enforcement actions, including penalties, for violations discovered as a result of this inspection, regardless of whether the violations were subsequently corrected.

I would like to remind you that the referenced facility is responsible for maintaining compliance with all applicable hazardous waste regulations. If there are any questions regarding this matter, please contact James Terry working under a grant at the EPA at (913) 551-7958.

Sincerely,

A handwritten signature in black ink, appearing to read "James Aycock".
